At Friends of the Family we take pride in being able to offer top-quality professional counseling services to our clients at affordable rates. We are only able to do that because of the generosity of our ministry partners, who *both* believe in what we are doing *and* care about you and your relationships.

Each of our highly trained counselors is either already licensed in the state of Oregon or is on track to become so in the future. Some of our clinicians are in the process of completing their graduate programs in a counseling-related field and are considered **Graduate Student Interns**. Some have completed their Master's degrees and are still accruing the hours required to become licensed. These are our **Registered Interns** – Licensed Professional Counselor-Interns or Licensed Marriage & Family Therapist-Interns. Others have already become **Licensed Clinicians** – LPCs or LMFTs.

Friends of the Family's Clinical Director is Dr. Renee del Rio, a **Licensed Clinical Psychologist** who brings with her over 20 years of experience in the mental health field. She provides ongoing training, clinical supervision and support to our team of clinicians, helping to ensure that each client receives the best possible care.

We are a faith-driven ministry. Our counselors and staff are all Christians, each feeling called by God to serve our community by helping improve all people's mental, emotional, relational and spiritual health – regardless of who they are and what their belief system is.

Payment for services is primarily self-pay, though our licensed clinicians are considered out-of-network providers for area insurance companies. Rates are determined by **Gross Household Income**, based on the combined pre-tax incomes of family members (i.e., incomes of both a husband and a wife).
